

### OEM-APPROVED GSE & TOOLING FOR MILITARY & DEFENSE

For decades, AGSE<sup>™</sup> has been a global leader in the original design, development, and manufacture of qualified & recommended solutions for the handling of military aircraft and engines!

Shipping Stand for F138 Engines (used on Lockheed C-5M Super Galaxy Aircraft)

AGSE P/Ns: AGSE-1928-B33 (Shipping Cradle) & AGSE-E222-G01 (Transportation Base)

Pneumatic Tire Dolly for F138 Engines (used on Lockheed Martin C-5M Super Galaxy Aircraft)

AGSE P/Ns: AM-1994R-L1F with AM-1928-B33 (Shipping Cradle)

## Our trusted & reliable Shipping Stands offer superior functionality that can aid any military operation:

- Air/Truck Transport or Storage for engine in QEC configuration (ready for installation)\*
- Bootstrap Adapters to support engine (when installed in Shipping Cradle) during removal/ installation from/on aircraft
- Tie-Down Rings on Transportation Base offer secure retainment for both engine & Shipping Stand
- Shock-Absorbing Mounts reduce vibrations during transport

#### Select models feature:

- Bootstrap adapters
- Pneumatic tires for enhanced engine protection during long-distance ground transport
- Hydraulic system for convenient deployment/stowage of casters or pneumatic running gears
- Collapsible Shipping Cradle to reduce shipping/storage volume
- Low profile or roll-over capability to enable height-restricted air transport
- Rail mounts for improved alignment when installing Shipping Cradle on Transportation Base

Shipping Stand for F138 Engines (used on Lockheed C-5M Super Galaxy Aircraft)

AGSE P/Ns: AGSE-1928-B33 (Shipping Cradle) & AGSE-E149-G03 (Transportation Base)

\*AGSE Shipping Stands are designed and built in compliance with the specifications and requirements of the engine's original equipment manufacturer (OEM). The customer is solely responsible for selecting the appropriate packaging based upon all information at his/her disposal, including the specific application, regulatory compliances, product compatibility, shipping requirements, and documentation issued by the Engine OEM. Any AGSE-referenced shipping information presented either in this product literature or other AGSE documentation is intended as general guidance only and should not be considered a complete set of shipping requirements that can alter, satisfy, or influence both regulatory and Engine OEM shipping requirements. The content found in AGSE marketing materials and other documentation is subject to change; AGSE accepts no liability for loss or damage resulting from changes, errors, omissions, or misinterpretations of these AGSE publications.

### Perform all aircraft maintenance checks safely, efficiently, and economically with our heavy-duty, elevated decks & stands:

- Total aircraft coverage
- Aerodeck<sup>™</sup> panels provide continuous work surface while minimizing gaps
  - Outstanding strength-to-weight ratio
  - · Non-skid surface
  - Inboard bumpers protect aircraft
  - Compatible with an extensive range of military aircraft

- Shock-absorbing casters for improved mobility
- Weatherproof electrical & air outlets provided throughout all platform components
- Select platforms:
  - Adjust horizontally and vertically to access multiple aircraft components
  - Include hoists for engine/heavy component removal or tool lifts
